Exercise (type and frequency): _____

Briefly describe your diet: _____

Insurance Information

At Many Lives, we provide insurance billing as a courtesy to our patients. Currently, we accept most PPO insurance plans, and are not currently “in-network” with any of them. Depending on your plan, you may still be covered, but this may result in a lower percentage of your claim being paid. Your financial responsibility depends on your specific health insurance plan.

If we are not able to verify your coverage before your first visit, you are responsible for the full payment at time of service. (Don’t worry) We will issue a refund for your acupuncture charge when we receive payment from your insurance company. When we are able to verify coverage and get an estimate of what they will cover, you will be expected to pay a co-pay at time of service. Amount due at time of service may need to be adjusted once we receive payments from your insurance company.

Please remember, the ultimate financial responsibility for payment lies with the patient, not the insurance company.

Release of Information

If your insurance company requires medical reports or records to document your treatment or progress, your signature below authorizes this office to release medical information necessary to process your claim:

Your signature below acknowledges that you have read and agreed to these terms.

Signature _____ Date _____

Thank you very much. We look forward to working with you.

Many Lives Chinese Medicine

Informed Consent to Treatment

I, _____ consent to acupuncture treatment(s) and other procedures associated with Traditional Chinese Medicine by Beth Schiffman, L.Ac. I have discussed the nature and purpose of my treatment, and understand that methods of treatment may include, but are not limited to acupuncture, herbal medicine, nutritional counseling, moxibustion, cupping and electrical stimulation.

I have been informed that acupuncture utilizes sterile needles and is done in a clean, safe environment; but that it may have side effects, including: bruising, numbness or tingling near acupuncture, dizziness and fainting. Some unusual risks of acupuncture include lung puncture (pneumothorax) and infection. Burns and/or scarring are a potential risk of indirect moxibustion and cupping. I understand that while this document describes the major risks of treatment, other side effects and risks may occur. I will notify Beth Schiffman if I am or become pregnant.

Herbs and nutritional supplements (from plant, animal and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs are inappropriate during pregnancy. Some possible side effects of taking herbs are nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives and tingling of the tongue. I will immediately notify Beth Schiffman of any unanticipated or unpleasant effects associated with the consumption of herbal teas, or patent (pill form) medicines.

By signing below I show that I have read this consent to treatment, and understand the risks and benefits of acupuncture and other procedures. I intend this consent form to cover the entire course of treatment for my present and any future conditions for which I seek treatment.
